## 3. Exploring: The Why

1. What do we believe?
2. What do we want to achieve?
3. Why do we go to work each day?
4. Why does our school exist?

## 4. Creating a purpose statement

- Define our mission.

## 5. Developing your mantra

No more than three to five words, a mantra defines what a school is and why it matters. A good school-guiding mantra is a powerful, energy-infused chant that everyone inside and outside a school can instantly understand, recognize, and repeat. There are five criteria to consider. A mantra must be:

1. Simple
2. Memorable
3. Positive
4. Grounded
5. Uniquely yours

*Each team member develops an **I-message** commitment statement based on the context of his or her roles at the school.*

*Lunch*

**6. Completing the draft mantra**

→ **Reflecting:** How can this help me plan with colleagues at school?

**7. Envisioning: The Eye**

1. What school do we seek to become?
2. What would our school look like if it were a great place for students? For teachers?
3. It is three years from now, and the school has achieved its vision. In what ways are we different? In what ways is the school different? Describe practices, procedures, relationships, results, and climate.

**8. Reflecting and setting the stage for day 2**
