

## Figure 6.22: Group Interaction Contract

Group members: \_\_\_\_\_

Questions to consider when creating norms:

- How will we decide who speaks and when?
- If we think of something to say while someone else is speaking, what will we do?
- How can we make sure that we disagree respectfully?
- If we need to make a decision as a group, what will our process be?
- How can we encourage everyone to participate?
