

Technology Integration Planning Model

Learning Objectives:

Curriculum Standards and Intended Learning Outcomes						
Step 1: Unpack the curriculum standards or learning objectives for content, skills, dispositions, or cognitive level (if skills). Content, skills, or dispositions (select one):	Indicate the cognitive level if it is a skill.					Step 6: Design assessments.
	Knowledge	Comprehension	Application	Analysis	Evaluation	
Step 2: Choose an appropriate instructional strategy.	Step 3: Examine available technology tools.	Step 4: Design learning activities and procedures.	Step 5: Design alternative activities in case of unforeseeable obstacles with technology.			
	Possible strategies:					
	Chosen strategies:
