

The Professional Learning Communities at Work™ Continuum: Clarifying What Students Must Learn

DIRECTIONS: Individually, silently, and *honestly* assess the current reality of your school's implementation of each indicator listed in the left column. Consider what evidence or anecdotes support your assessment. This form may also be used to assess district or team implementation.

We acknowledge that the fundamental purpose of our school is to help all students achieve high levels of learning, and therefore, we work collaboratively to clarify what students must learn.

Indicator	Pre-Initiating	Initiating	Implementing	Developing	Sustaining
We work with colleagues on our team to build shared knowledge regarding state, provincial, or national standards; district curriculum guides; trends in student achievement; and expectations for the next course or grade level. This collective inquiry has enabled each member of our team to clarify what all students must know and be able to do as a result of every unit of instruction.	Teachers have been provided with a copy of state, provincial, or national standards and a district curriculum guide. There is no process for them to discuss curriculum with colleagues and no expectation they will do so.	Teacher representatives have helped to create a district curriculum guide. Those involved in the development feel it is a useful resource for teachers. Those not involved in the development may or may not use the guide.	Teachers are working in collaborative teams to clarify the essential learning for each unit and to establish a common pacing guide. Some staff members question the benefit of the work. They argue that developing curriculum is the responsibility of the central office or textbook publishers rather than teachers. Some are reluctant to give up favorite units that seem to have no bearing on essential standards.	Teachers have clarified the essential learning for each unit by building shared knowledge regarding state, provincial, or national standards; by studying high-stakes assessments; and by seeking input regarding the prerequisites for success as students enter the next grade level. They are beginning to adjust curriculum, pacing, and instruction based on evidence of student learning.	Teachers on every collaborative team are confident they have established a guaranteed and viable curriculum for their students. Their clarity regarding the knowledge and skills students must acquire as a result of each unit of instruction, and their commitment to providing students with the instruction and support to achieve the intended outcomes, give every student access to essential learning.

Where Do We Go From Here? Worksheet Clarifying What Students Must Learn

Indicator of a PLC at Work	What steps or activities must be initiated to create this condition in your school?	Who will be responsible for initiating or sustaining these steps or activities?	What is a realistic timeline for each step or phase of the activity?	What will you use to assess the effectiveness of your initiative?
