

The Professional Learning Communities at Work™ Continuum: Providing Students With Systematic Interventions and Extensions

DIRECTIONS: Individually, silently, and *honestly* assess the current reality of your school's implementation of each indicator listed in the left column. Consider what evidence or anecdotes support your assessment. This form may also be used to assess district or team implementation.

We acknowledge that the fundamental purpose of our school is to help all students achieve high levels of learning, and therefore, we provide students with systematic interventions when they struggle and extensions when they are proficient.

Indicator	Pre-Initiating	Initiating	Implementing	Developing	Sustaining
We provide a system of interventions that guarantees each student will receive additional time and support for learning if he or she experiences initial difficulty. Students who are proficient have access to enriched and extended learning opportunities.	What happens when a student does not learn will depend almost exclusively on the teacher to whom the student is assigned. There is no coordinated school response to students who experience difficulty. Some teachers allow students to turn in late work; some do not. Some teachers allow students to retake a test; some do not. The tension that occurs at the conclusion of each unit when some students are proficient and ready to move forward and others are failing to demonstrate proficiency is left to each teacher to resolve.	The school has attempted to establish specific policies and procedures regarding homework, grading, parent notification of student progress, and referral of students to child study teams to assess their eligibility for special education services. If the school provides any additional support for students, it is either a "pull-out" program that removes students from new direct instruction or an optional after-school program. Policies are established for identifying students who are eligible for more advanced learning.	The school has taken steps to provide students with additional time and support when they experience difficulty. The staff is grappling with structural issues such as how to provide time for intervention during the school day in ways that do not remove the student from new direct instruction. The school schedule is regarded as a major impediment to intervention and enrichment, and staff members are unwilling to change it. Some are concerned that providing students with additional time and support is not holding them responsible for their own learning.	The school has developed a schoolwide plan to provide students who experience difficulty with additional time and support for learning in a way that is timely, directive, and systematic. It has made structural changes such as modifications in the daily schedule to support this system of interventions. Staff members have been assigned new roles and responsibilities to assist with the interventions. The faculty is looking for ways to make the system of interventions more effective.	The school has a highly coordinated system of interventions and extensions in place. The system is very proactive. Coordination with sender schools enables the staff to identify students who will benefit from additional time and support for learning even before they arrive at the school. The system is very fluid. Students move into intervention and enrichment easily and remain only as long as they benefit from it. The achievement of each student is monitored on a timely basis. Students who experience difficulty are required, rather than invited, to utilize the system of support. The plan is multilayered. If the current level of time and support is not sufficient to help a student become proficient, he or she is moved to the next level and receives increased time and support. All students are guaranteed access to this system of interventions regardless of the teacher to whom they are assigned. The <i>school</i> responds to students and views those who are failing to learn as "undersupported" rather than "at risk."

Where Do We Go From Here? Worksheet Providing Students With Systematic Interventions and Extensions

What will you use to assess the effectiveness of your initiative?	What is a realistic timeline for each step or phase of the activity?	Who will be responsible for initiating or sustaining these steps or activities?	What steps or activities must be initiated to create this condition in your school?
