

## Chapter 10 Reflection Questions

Now that you have completed the chapter, consider and reflect on the following questions.

1. What are some of the social norms that your students (especially your most challenging ones) struggle with? Why is it important that students understand these norms, and how can you address them so that they can incorporate them into their daily lives?
2. Who are some adults in your school's community that you could bring in, or set up a video conference with, to speak to your students? How do you think your students would respond if you did? Are there ways to make sure your students stay in touch with them?
3. What are some of the ways that you have tried to build relationships in the past? What would you need to do to build lasting, transformative relationships with your students?
4. Why is it important to establish connections with students who are at risk or who might appear to lack motivation?
