

Chapter 19 Reflection Questions

Now that you have completed the chapter, consider and reflect on the following questions.

1. Have you had any experiences with participating in a job share? If so, what worked well, and what did not?
2. What do you see as the biggest challenges with convincing an administrator that a job share is beneficial to both teachers and all students? What work can you do in advance to address these challenges?
3. Once in a job share, in what ways could you communicate your successes (and challenges) to your administrators and parents to show it is working?
4. When working in a job share, what collaborative challenges or conflicts have arisen with your partner teacher? Were you able to successfully overcome them? If not, how could you improve your conflict-resolution practices to produce better outcomes?
