

## Chapter 8 Reflection Questions

Now that you have completed the chapter, consider and reflect on the following questions.

1. What changes could you make in how you teach your curriculum that would make its content more culturally relevant to your students? How might doing so benefit their learning?
2. Is there a teacher at your school whom you know is struggling, or possibly suffering from burnout? What are some things that you could say to that teacher, or some ways that you could encourage him or her?
3. What specific, targeted training do you feel like you need? What other teachers might also like that targeted training, and who could you go talk to about getting it?
4. Name a student in your class whom you don't really know much about. What could you say to him or her *tomorrow* that would help you connect? What could you say the day after that? How would that student's life be different if he or she knew how much you cared?
