

Personal Reflection

What does a *child-centered approach* mean to you? Do you think it would take more time (in the long run as well as short term)?

Can you name the strengths, interests, and preferences of any one of your students? How do you infuse them into your lessons?

Can you name the fears, frustrations, and dislikes of any one of your students? Can you elaborate on how those might impact behavior?

How can you make your teaching more child centered in general?
